I question why the AG is having this on mental illness, that is why the AG. if you include PTSD I have that from SUNY (and other) police. but the ag accepts their crimes as sovereign immunity. Well it is not. it is a crime and therefor there is no immunity but no government entity will prosecute/investigate. I will guess local mafia will be with the AG today. the AG needs to be on top of illegal drugs; they cause much of the mental illness.
